

Dialog

```
graph BT; A[topFrame.DlgOptions] --> B[Dialog];
```

A UML diagram showing an association between two classes. At the bottom is a class box labeled 'topFrame.DlgOptions' with a light gray fill and a black border. A vertical blue line with a triangular arrowhead points upwards from this box to a second class box labeled 'Dialog' at the top. The 'Dialog' box is white with a black border.

topFrame.DlgOptions
